EDUCATION

KALINGA INSTITUTE OF INDUSTRIAL TECHNOLOGY

Bachelors in Computer Science and Engineering

May 2019 - May 2023

CGPA - 8.9/10

SKILLS

Language: C++, Java, JavaScript, Typescript.

Library: ReactJS, Redux-toolkit, NodeJS, Tailwind.

Framework: React-Native.

Technology: Postman, Git, PostgreSQL, SQL.

Other: Research Blogs.

DigiRetail Software | OCT-2024 - Present

BANGALORE

Software Engineer

- Currently working on the web version of Scheme-Kya-hai and also optimizing the app version with the help of React-Native and improving the engagement time by 25%.
- Contributed to the web app's admin panel, including the profile section used to handle all customers and distributors. Utilized **Redux** to manage transient app state and **Axios** to manage middleware and API requests.
- Developed the Complaint Management component for the mobile app for retailers and the Resolve section for the admin panel, enabling distributors to create and manage complaints efficiently.
- Also participated in deployment and build of the process of the app to Appcenter

ALIENITY TECHNOLOGY | AUG-2023 - SEP-2024

KOLKATA

Associate Software Developer

- Built a full SaaS E-Commerce Dashboard from scratch using **React**, **Redux**, **TypeScript**, and AI tools, reducing page load times by 20% through optimization techniques like efficient state management, lazy loading, and code-splitting.
- Developed real-time data tracking with **D3.js**, integrated **RESTful APIs** for inventory and shipment management, and created a **Node.js** API for API2CART with **RTK Query** and **Auth0** authentication. Designed and implemented a notification system to alert clients about outbound shipment dates with options.
- Led the creation of visual automation flows using **React-Flow** library, designed reusable nodes for e-commerce tasks, and implemented a Redux Toolkit-based notification system

HIGHRADIUS TECHNOLOGY | Jan-2022 - May-2022

BHUBANESWAR

Web Developer Intern

- Collaborated with Built an AI-enabled Fin tech B2B Invoice Management to predict invoice payment dates and create a full-stack Invoice Management Application with **ReactJS**, **Firebase** and **MaterialUI**.

PROJECTS

THE NU BEGINNING | [Link](#)

Developed a responsive and visually appealing website using **ReactJS** and **Tailwind.CSS**, with **Redux** for state management and **NodeJS/NodeMailer** for back-end mail-sending capabilities.

SMART CLASS | [Link](#)

Developed a secure web app for online classrooms featuring video rooms, real-time chat, and secure classroom keys. Enabled teachers to invite students, share materials, and create assignments, while students could access resources, submit work, and join video classes with the help of **ReactJS**, **Firebase (BaaS)**, and **MaterialUI**.
